Vietnam Association for Supporting Industries (VASI) is a non-governmental and non-profit organization representing manufacturing enterprises and supporting industries in Vietnam. As part of our yearly program, this Yearbook is published to introduce VASI member companies to buyers.

In this publication, we included 224 members who are manufacturing companies in metal working, molds and fixtures, automation system, electrical & electronics components, plastic & rubber components, materials, and software solutions for manufacturing industry. We divided the companies into four sectors: Mechanical engineering, Electric & Electronic, Plastic & Rubber engineering, and Material & Others. They are among the best companies supplying to multinational corporations in Vietnam and also exported to Japan, Korea, North America, and Europe.

In order to support our members to meet global demand and requirement, VASI regularly offers capacity building and coaching courses, participating to international trade fairs and matching activities to worldwide buyers. Also, we regularly host forums and seminars, conducting market research, survey and provide data on manufacturing industries for interested stakeholders.

VASI is a trusted and dedicated partner of governmental and international organizations in the area of industrial development, such as Ministry of Industry and Trade, Ministry of Planning and Investment, overseas Vietnam Trade offices, the World Bank Group's International Finance Corporation (IFC), and Japan International Cooperation Agency (JICA). We also successfully matched global companies around the world with our Vietnamese suppliers.

We hope you find this Yearbook useful and sincerely wish to mutually cooperate with you. Please do not hesitate to contact us if you have any inquiries related to manufacturing industries in Vietnam.

17 Mechanical company is a State-owned Company specialized in mechanical engineering machining, pressing and die casting. MC17 has been cooperating for a long time with companies come from Japan, some of whom are considered renowned corporations. We would like to deal with foreign corporations with an idea of introducing MC17 to the world.

- **Established year:** 1956
- **Number of permanent employees:** 1100
- **Turnover:** 2 million USD
- **Standards:** ISO 9001:2015; 5S; IWAY
- **Main products:** Metal products; Motorcycle parts; Die casting parts
- **Main technology and equipments:** Die casting machine (15 units); Pressing machine (65-1000 tons) (11 units); CNC machine (120 units)
- **Main customers:** Landmann; IKEA; Jaguar; Honda; Nissin; Piaggio
- **Export Experience:** EU

Though established in January 2011, our company has got considerable achievements. We are secondary supplier of motorbike equipments for big manufacturers such as Honda, Yamaha, Piaggio, etc. We are capable of meeting the demand for high-accuracy equipments by bending, lathing and stamping process. We have strict quality management with 100% of our products being checked thoroughly before shipment.

- **Established year:** 2011
- **Number of permanent employees:** 81
- **Turnover:** 1.6 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Metal parts; Motobike parts
- **Main technology and equipments:** Bending machine (3 units); Lathe machine (17 units); Pressing machine 150T (3 units); Lathe machine (1 unit); Milling machine (1 unit); Welding machine (4 units); Wire cutting machine (3 units);
- **Main customers:** VPIC1, Azuma Vietnam; Yahata Vietnam, Cosmos.

Founded in 2001, AMA is a privately held manufacturer of precision die-cast, machined and assembled products in various industries. We adhere strictly to the requirements of ISO 9001:2015, ISO 14001: 2015 and IATF 16949: 2016 as our fundamental basis for the quality management system.

Over the last 2 decades, we have been making continuous investment in our infrastructure, equipment, processes and people to meet your product requirement and quality standard. If you are looking for a trusted partner who will create and execute a plan to get your parts done right – AMA is the right one for you.

- **Established year:** 2001
- **Number of permanent employees:** 250
- **Turnover:** 9 million USD
- **Standards:** ISO 9001:2015; IATF 16949:2016; ISO 14001
- **Main products:** Precision die-casting parts; Machined and assembled products (Flange; Bushing; Nut; Motor Pulley; Heatsink; Tool pocket; Spinner Shaft Flange; Base fuel; Cylinder head; Handle)
- **Main technology and equipments:** Die casting machine (18 units); Inpection machine (7 units); Precision machining machine (31 units)
- **Main customers:** LG Electronics Viet Nam; Panasonic appliances Vietnam; Dorco Vina; ACE precision international; Toyota Industrial Equipment
- **Export experience:** USA; Italy; Germany

An Mi Tools Co., Ltd was established in 2009, and is the partner of choice for precision grinding, fabrication of custom made tools, recondition and modification services, contract manufacturing and OEMs. We serve customers in the automotive, aerospace, oil and gas, medical, electronic, die and mould, steel processing industries...

- **Established year:** 2009
- **Number of permanent employees:** 90
- **Turnover:** 6.8 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Jig, part of machine; Cutting tools; Pin-gauges; Machine tool accessories; Reconditioning and rebuilding services; PVD coating;
- **Main technology and equipments:** CNC Grinding machine (10 units); CNC Milling machine (15 units); CNC Turning machine (5 units); Wire cutting machine (7 units); Grinding machine (30 units); PVD Coating Center (1 unit);
- **Main customers:** Yamaha Vietnam; Sumitomo; Nissey Vietnam

ATT Industrial Joint Stock Company (ATTI, JSC) is a leading company in Technology-Driven solutions. We provide casting products and services for foundry industry and manufacturing with high quality control. We provide total solutions in foundry to customer from equipment of production and quality control, Consumable and Supply chain and casting products.

- **Established year:** 2004
- **Number of permanent employees:** 15
- **Turnover:** 4 million USD
- **Main products:** Metal parts; Casting parts; Casting products; Lost-Wax Casting Products; Lost-Foam Casting Product;
- **Main technology and equipments:** Furan casting system; Casting testing system (OES Spectrometer (1 unit); Hardness tester (1 unit); Ultrasonic Flaw Tester (1 unit); Inverted Microscope (1 unit); Universal Testing Machine (1 unit)
- **Main customers:** Vietnam customers
BAC VIET TECHNOLOGY JSC.

Bac Viet provides its valued customers with a comprehensive solution for the production of precision injection molds and precision plastic parts used in the electric-electronics industry.

With modern and synchronous machinery system, highly qualified human resources and successful application of quality management system ISO 9001:2015 and ISO 14001:2015, Bac Viet has met the demands of Japanese and Korean customer such as Canon Vietnam, Samsung Vietnam, Kyocera Vietnam, Seowon Intech and other large corporations.

• Established year: 2008
• Number of permanent employees: 230
• Turnover: 6.5 million USD
• Main products: Precision injection mold; Injection plastic parts
• Main technology and equipments: Injection Molding Machine 60-360T (35 units); Zoller Presetter (1 unit); Vision Measuring Machine (1 unit); Cordinate measuring machine (1 unit); CNC Vertical Milling machine (5 units); CNC lathe machine (1 unit); Grinding machine (1 unit); Wire cutting machine (1 unit); EDM (1 unit); Surface grinding machine (1 unit)
• Main customers: Canon Vietnam; Muto; Kyocera; Korg Vietnam; Hanoi Seowon Intech; Estec Phu Tho Co.ltd

BACH TUNG CONSTRUCTIONS MECHANICAL CO., LTD

Bach Tung Company specialized in the field of processing precision mechanical parts: shaft, nut, pin, spindle, aluminum parts. Our company is capable of processing many different materials such as Carbon Steel (S45C, S50C, SS400, ...), stainless steel (SUS303, SUS304, ...), copper (C3604, C1100, ...), aluminum (A6061, A5052, A6063, ...) and POM plastic materials ...

Our company has been investing in more new machines from 2015 up to now, such as Milling Machine 05 Axis; automatic lathe machine. etc.

• Established year: 2008
• Number of permanent employees: 120
• Turnover: 2.4 mill USD
• Standards: ISO 9001:2015; 5S
• Main products: Metal processing; Metal parts (Shaft, Pin, nut, screw); Aluminium parts; Auto line system;
• Main technology and equipments: CNC Milling Machine 5 axis (1 unit); CNC Milling Machine (1 unit); CNC Lathe; Drilling Robot; Wire Cutter; Milling Machine; Surface Grinding Machine
• Main customers: Nidec Tosok Vietnam; Foster Electric Vietnam; Fujikura; Fukusuke

CENTRAL AREA ELECTRICAL MECHANICAL JSC.

- **Established year:** 1987
- **Number of permanent employees:** 380
- **Turnover:** 16 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Mechanical structure; Hydraulic mechanical products; Electrical material and equipments
- **Main technology and equipments:** Automatic marking punching shearing line for angles and plate; Hot dip galvanizing line - 40 tons/ day; Hydraulic mechanical equipment production line
- **Main customers:** Vietnam Electricity Cooparation
- **Export experience:** China; India

Central Area Electrical Mechanical Jsc. is a Vietnam-based manufacturer of heavy electrical equipment. It is involved in the manufacturing and trading of transformers, electrical wires, cables and other composite equipment used in electricity transmission. The Company also manufactures and trades mechanical machinery and equipment for industrial production. In addition, it provides construction and installation services of power systems, along with repair and maintenance services of vehicles. Other activities include trading of motor cycle parts and leasing of vehicles. The Company is a subsidiary of Vietnam Electricity Group.

Codo Jsc. specialises in steel structure and motorcycle parts. The main products are warehouse in the industrial zone, the brick factory, steel beam system at the restaurants, pools. We are also Yamaha motor Vietnam's supplier with main processes are wheel assembly, motorcycle parts manufacturing.

- **Established year:** 1975
- **Number of permanent employees:** 200
- **Turnover:** 3 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Motorcycle parts; Motorcycle wheel; Industrial facilities (6 units); Automatic welding line (2 units); Punching machine 40T-110T (10 units);
- **Main technology and equipments:** Motorcycle wheels assembly lines
- **Main customers:** Yamaha Vietnam

With more than 10 years of development, COSMOS has become a trusted partner of top enterprises in the field of automobile, motorcycle and electronic manufacturing such as Honda Viet Nam, Toyota Motor Viet Nam, Panasonic Viet Nam, Goshi Thang Long Auto-Parts, Nissin Brake Viet Nam, etc. Thanks to our accumulated credibility and experience throughout that path, we are aiming "To be a leading supplier of Viet Nam in the field of mechanical auxiliary industry"

- **Established year:** 2005
- **Number of permanent employees:** 1702
- **Turnover:** 48 million USD
- **Standards:** ISO 9001:2015; ISO 14000:2015
- **Main products:** Motorcycle parts; Automobile, electronics parts; Dies, Jigs
- **Main technology and equipments:** Press Machine (100 units); Robot Welding Machine (120 units); Welding machine (180 units); Wire Cutting Machine (6 units); Tapping Machine; Laser Cutting Machine (1 unit); CNC Milling Machine (7 units); 4 axis milling DMG machine (2 units)
- **Main customers:** Honda Vietnam; Toyota Motor Vietnam; Nissin Brake Vietnam, Panasonic Vietnam, Shindegen Vietnam
- **Export experience:** Japan

Song Cong Diesel Co., Ltd was founded on 25 April 1980 as a member of Vietnam Engine and Agricultural Machinery Corporation (VEAM) - Ministry of Industry and Trade. Our factory covers a total area of 165,000 m². We carry modern test equipment such as Measuring 3-dimensional space; metallographic microscope; Component analyzer; Machine check magnetism; other common test equipment, etc.

Typical Technology: Embryonic forging; embryonic casting; Machining; Design (we designed and manufactured products and molds in 3D software (Catia).

- Established year: 1980
- Number of permanent employees: 929
- Turnover: 8 million USD
- Main products: die casting parts; crankshaft; Gear boxes; Other parts
- Main technology and equipments: Casting line; Pressing machine (25-315T) (5 units); CNC Lathe machine (40 units); CNC Milling machine (10 units); Grinding machine (55 units);
- Main customers: SVEAM; Honda; Nakagawa; Dorman; Sankyo;
- Export experience: USA; Germany; Japan;

Dong Anh LICOGI Mechanical Jsc. (CKDA) was established in 1963. Our main products are:

- Casting alloy products: grinding media (ball and cyped), wearing and impacting resistant alloy and various spare parts for tube and vertical mills to serve for the industries of cement, mines, coal-fired power plant, chemical fertilizer.

- Space frame and steel structure: used in constructing public projects and industrial houses such as: Sport complexes, stadium, entertainment areas, exhibition centres, super markets, storages of factories, stations,...

We also provide materials and equipments for foundry and aluminium industries such as ferrous, non-ferrous, aluminium billet, aluminium ingot,...

- Established year: 1963
- Number of permanent employees: 940
- Turnover: 6 million USD
- Standards: ISO 9001: 2015
- Main products: Casting alloy; Aluminum profile; Space frame and steel structure
- Main technology and equipments: DISAMATIC line (1 unit); Fabrication system of space frame and ball nut (1 unit); Extrusion production line (2 units)
- Main customers: Cement companies; extractive companies;
- Export experience: Thailand, Japan, Korea, Namibia, UAE, Italy, Australia
DONG TIEN MECHANICAL TRADING PRODUCTION JSC.

We are a manufacturing company with more than 8 years of experience in manufacturing and processing precision mechanical products by high technology by machines imported from Japan. Advantages: machining lathe and CNC milling products with complex shapes and high precision (0.005mm).

- Established year: 2010
- Number of permanent employees: 45
- Turnover: 1.2 million USD
- Standards: ISO 9001:2015
- Main products: Metal parts; Parts of machines
- Main technology and equipments: CNC machine (4 units); CNC Lathe Machine (9 units); CNC Milling machine (5 units)
- Main customers: JUKI; KIWA; Pepsico Vietnam; OHTA Vietnam; MATAI Vietnam;
- Export experience: Japan, USA

Duy Phong Engineering Manufacturing Co., Ltd. is one of the leading moldbase companies in Vietnam. We can provide several total solutions for customers through a self-contained procedure from initialing importing carbon steels use for moldbase fields to producing standard moldbases (Based on Japanese standard) for all customers. In the other hand, Duy Phong also proceed processing due to requirements of client’s drawings, supplying moldbase's hardwares such as: Guide pins, support pins, silvers,... (Based on Japanese standard) for moldbase market in Vietnam. We always ensure the quality and that's why delivery date is in our hands.

- **Established year:** 2009  
- **Number of permanent employees:** 160  
- **Turnover:** 5.5 million USD  
- **Standards:** ISO 9001:2015; OHSAS 18001:2007  
- **Main products:** Mould; Mould steel; Mould part;  
- **Main technology and equipments:** CNC Milling machine (24 units); Grinding machine (5 units); Lathing, drilling machine(4 units); Flaw Detector (1 unit)  
- **Main customers:** Duy Tan; Mida; Rhythm; Mitsuba; Kyocera; Kosa Vina; Boseung Vina

ECOM is one of leading sheet metal manufacturer in Vietnam. With high technology equipment and skill employees, we promise to supply to our customers with high quality products with long time corporation.

- **Established year:** 2015  
- **Number of permanent employees:** 25  
- **Turnover:** 500 000 USD  
- **Main products:** Sheet metal parts; Machinery parts (cover; frame); Furniture products; Steel fabrication  
- **Main technology and equipments:** Laser cutting machine (1 unit); Punching machine (1 unit); Pressing machine(1 unit); Welding machine (Tig, mig, spot) (9 units); Drilling & Tapping machine (1 unit)  
- **Main customers:** Kuken Japan; Fuji Impulse; Sankitech; TK Industry; Shiogai Seiki; Duy Khanh

Machinery Spare Parts No.1 Jsc. (FUTU 1) was established on 25th March 1968. Our company's main products are components, spare parts and accessories for motorcycle, engine and machinery industry. FUTU 1's main customers are Honda Vietnam, Yamaha Vietnam, Sumitomo Heavy Industries, Atsumitec Vietnam, Piaggio Vietnam, Schaeffler Vietnam, SYM, etc.

- **Established year:** 1968
- **Number of permanent employees:** 1211
- **Turnover:** 38 million USD
- **Main products:** Motorcycle parts; Engine parts; Mechanical products
- **Main technology and equipments:** Milling machine (105 units); CNC milling machine (02 units); NC, CNC Lathe (154 units); Driller (48 units); Shaping machine (12 units); Casting mould making machine (27 units)
- **Main customers:** Honda Vietnam; Yamaha Vietnam; Sumitomo heavy Industries; Schaeffler Vietnam; etc
- **Export experience:** Japan; Thailand, Italia, Slovakia

FUVI Mechanical Technology Company specializes in plastic coppha for construction and plastic molds. FUVI is involved in the entire process of design, production and delivery. The interest which is most taken care of by FUVI regards its clients' success and effective competitive strenght. All molds are therefore strictly checked for quality by FUVI's professional engineers and technicians before being delivered. Our delivered molds are guaranteed for 1,000,000 shots. All the components are standardized and can be replaced easily and quickly.

- **Established year:** 1994
- **Number of permanent employees:** 200
- **Turnover:** 5.5 million USD
- **Standards:** ISO 9001:2015
- **Main products:** plastic coppha for construction; plastic molds
- **Main technology and equipments:** CNC machine center; CNC wire cut center; CNC EDM center; Die Progressive; Robot welding
- **Main customers:** Suzuki Vietnam; Sanyo; Obayashi; Tasei
- **Export experience:** Thailand; Cambodia

Hanoi Industry Trading Investment JSC. (Osaka Seimitsu) is an enterprise specializing in manufacturing plastic injection molds, die cast molds, hot forging molds, cold forging molds. We also manufacturing jigs and machines part with high precision machines. Beside we have plastic molding, hot forging and pressing workshop to produce parts for automotive industry and houseware products.

With a team of skilled staff and high precision equipment, we always strive to bring the best services to customers.

- **Established year:** 2011
- **Number of permanent employees:** 85
- **Turnover:** 1.4 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Mould & Jig: plastic molds, die cast molds, hot forging molds; Stamping parts; Plastic & Rubber injection parts
- **Main technology and equipments:**
  - CNC milling machine (9 units); EDM (3 units); Punching machine (10 units);
  - Drilling machine (6 units); Lathe machine (7 units); CNC machine (5 units)
- **Main customers:** Kai; Fukoku; Bandai; Fujipla; Ustech; Osawa; Swico; JAT, Tecomen
- **Export experience:** Japan; USA

---

Our main services are designing, manufacturing moulds (plastic injection - moulds, pressure casting die - moulds, die moulds, rubber moulds) and jigs (Assembly-Processing-Testing Jigs) made to orders. The quality of the products are enhanced, reaching more precision.

The sufficient, synchronous mechanism with high quality (milling - lathing system CNC, universal milling - lathing system, face-grinding machine, circular grinding machine, hole grinding machine, wire cutting machine, electrodisharge machining (EDM), mould testing squeezer, hardness measurer, 2D co-ordinate measurer, 3D CMM, etc.) help to ensure the self-contained processing to meet the manufacturing progress.

- **Established year:** 2004
- **Number of permanent employees:** 55
- **Turnover:** 1.5 million USD
- **Standards:**
- **Main products:** Molds; Jigs
- **Main technology and equipments:**
  - CNC Milling Machine and CNC Lathe Machine (11 units); Milling machine and Lathe machine (14 units); CNC Wire Cut Machine; External Grinder; Surface Grinder; 3D CMM
- **Main customers:** Yamaha; Canon; Honda lock; Chiyoda; Showa; Hilex; Panasonic

Hanoi Mechanical Company Limited – HAMECO was established since 1958, serving domestic and international demands from a wide range of industries of Hydroelectricity, Thermoelectricity, Cement, Steel laminating, Irrigation, Petroleum gas, Auxiliary industry...

Hameco has a closed manufacturing process from Design, Casting, Steel structure, Machining, Heat treatment, and Assembling to Full equipment manufacture for various industries.

- **Established year:** 1958
- **Number of permanent employees:** 450
- **Turnover:** 22 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Metal parts; Metal products;
- **Main technology and equipments:** Automatic greensand iron casting line (1 unit); Furan resin sand iron casting lines (1 unit)
- **Export experience:** England; Japan; Austria; Italy; India

Ha Noi Mould Technology Company Limited. Located in Lai Xa industrial park, Kim Chung commune, Hoai Duc District, Hanoi city, Vietnam. Operates and business according to the Business Registration No. 0102021859, issued by Hanoi Department of Planning and Investment. on August 16, 2005

After more than 14 years of establishment and development, the company has built a strong mould factory, a team of highly qualified. With modern moulds, constantly improving, developing to reach the high technical moulds.

- **Established year:** 2005
- **Number of permanent employees:** 30
- **Turnover:** 1 million USD
- **Standards:** 5S
- **Main products:** Molds; Jigs; Injection Mould
- **Main technology and equipments:** CNC Milling; Wire Cutting; Flat Grinding; Discharge Machining; Discharge Machining
- **Export experience:** Japan, Germany, USA
PTE was established in 2003 at Hiep Phuoc IZ, Nha Be, Ho Chi Minh City, Vietnam. We are a manufacturer specializing in Mold Making, Plastic Injection Molding, and Plating on Metal & Plastic Parts. With our mission is to provide certain inputs to customers, we are affirming our prestige in supplying system of the famous brand names such as Toyota, Samsung, Piaggio, Panasonic, Siamp. We provide our services in many fields such as Sanitary Ware, Interior and Decorative Accessories; OEM Parts for Motorcycle, Automobile and Home Appliances.

- **Established year:** 2003
- **Number of permanent employees:** 300
- **Turnover:** 7.4 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Plastic mould; Plastic parts; Plated Parts; Plating & electroplating service
- **Main technology and equipments:** CNC milling machine (4 units); CNC EDM machine (01 unit); CNC wire cutting machine (01 unit); Plastic injection machine (20 units); Electroplating Lines (7 units)
- **Main customers:** Samsung; Panasonic; Piaggio; Siamp
- **Export experience:** Italia; Japan; USA; Mexico; Russia

Our company specializes in producing jig (assembly jig, operation jig, heat pressing jig, test jig) and precision metal parts. We have more experience in jig processing and we have good understanding of the high and multiple requirements of cutomers. Moreover, we process precision metal parts (order form 1 piece) and precision plastic part. We were supplier for more FDI companies in Vietnam and export to Japan, Korea.

• Established year: 2008
• Number of permanent employees: 120
• Turnover: 2.3 million USD
• Standards: ISO 9001:2015
• Main products: Jigs (assembly jig, operation jig, heat pressing jig, test jig); Precision metal parts;
• Main technology and equipments: CNC Machining center (20 units); CNC Lathe machine (8 units); CNC Drilling machine (5 units); Welding machine (4 units); Grinding machine (3 units)
• Main customers: Sumitomo Wiring Systems; Sumi Vietnam Wiring Systems; Johoku Hai Phong; LG Electronics Vietnam
• Export experience: Japan

Industrial Mechanics and Automation Co., Ltd Established in 2008
Stage of about 10 years of operation until present, IDMEA is proud of at the top of strong brand of ancillary industries in Vietnam.
IDMEA always built up confidence for customers by product with quality, delivery schedule and the best service in the market.
With qualified products, delivery time exactly with perfect service, IDMEA has won the trust of our customers, has the power to overcome the difficult economic period-forward to the future. With enthusiasm and passionate staff for the profession, with the equipment are invested modernly. We constantly make effort and strive to add value for customers.

• Established year: 2008
• Number of permanent employees: 136
• Turnover: 6 million USD
• Standards: ISO 9001:2015
• Main products: Industrial equipments; Automatic System; Jig; Conveyor; Structural goods Precision parts;
• Main technology and equipments: Pressing machine (6 units); Bending machine (6 units); Welding machine (6 units); Milling machine (5 units); CNC lathe machine (1 unit)
• Main customers: Vinfast; Vinsmart; Samsung; Canon; Finetek; Sumitomo

Established year: 2003
Number of permanent employees: 145
Turnover: 7 million USD
Standards: ISO 9001:2015; SS; JIS
Main products: Electrical panel; Enclosure switchgear; Sheet metal processing
Main technology and equipments: Lazer cutting machine; Punching machine; Bending machine; Painting line; Welding machine
Main customers: Vinakinden, Kurihara, Kandenko (Domestic); Panasonic, Aikendenko, Kojima (Export – OEM Automation cabinet); Sanmatsu, Yamada, Hakusan (OEM sheet metal processing)
Export experience: Japan

Vietnam Industrial System Co., Ltd (Indeco) specializes in manufacturing electrical panels and sheet metal processing. Our products is stability and high quality. Our engineer and worker is trained about standards and quality control systems in Japan. Our products satisfied high requiements, standards and export to Japan.

Main products of Indeco:
- Sheet metal processing: conveyor; camera cabinet for ships; electrical panel
- Automation cabinet for manufacturing processing lines
- Motor control center; Metal enclosed switchgear

Machinery Industry, JSC is a manufacturer and supplier of quality products for the supporting industry in Vietnam. The slogan “Work Together” is inculcated in the corporate culture that helps MHA grow up in harmony and sustainability.

THE MAIN PRODUCTION FIELDS
- Processing the precision machining and jigs
- Manufacturing machinery, automatic production line
- Manufacturing conveyor, conveyor system
- Processing structure products: working tables, racks, trolleys,...
- Setting up cleanroom: clean chamber, structure products for clean rooms

MIDA Precision Mold Co., Ltd was established in 2005, located in the area of 15000m2 which is clean and convenience on traffic.
We are professional in making Precision injection mould; Technical plastics parts for electronic, medic and medical devices.
Minh Hoa Investment JSC. was established in 1993.
We manufacture a comprehensive product range of brass and Zinc-Aluminum alloy valves, faucets, accessories, various kinds of plastic parts and valves, and water meters for the industries of water, gas and petrol supplies or supporting industries. We are ready to manufacture parts in the field of supporting industry, processing machine parts with copper, zinc and aluminum alloys ... according to drawings

- **Established year**: 1993
- **Number of permanent employees**: 450
- **Turnover**: 14 million USD
- **Standards**: ISO 9001: 2015
- **Main products**: Brass, Zinc, PPr-Valves and Taps; Brass Accessories
- **Main technology and equipments**: Processing machine (19 units); Lathe machine (156 units); Hot stamping machine (40-500T) (37 units); Polishing machine (10 units); Zinc casting machine (5 units); Aluminum casting machine (1 unit); Plastic injection machine (5 units); Copper production line (2 units); Tester machines
- **Export experience**: Japan, USA, Germany; Korea; Thailand; Malaysia

Minh Quang Trading & Industries Co., Ltd was established in 2004, specialises in mechanical products from single to mass production. Our main processes are lathing, milling, grinding, forming, pressing... with more than 100 machines. We keep effort for improving and changing in order to make the good products with QCD target.

With the main action target “ALWAYS TRY THE BEST TO GET THE HIGHEST SATISFACTION OF CUSTOMERS BY THE HIGH QUALITY, DELIVERY ON TIME”, Minh Quang is one of the prestige suppliers in the system of Honda and Yamaha.

- **Established year**: 2004
- **Number of permanent employees**: 150
- **Turnover**: 6 million USD
- **Standards**: ISO 9001:2015; ISO 14000:2015; 5S; Kaizen; TQM
- **Main products**: motocycle parts: steering parts; cylinder; valve; washer; spring
- **Main technology and equipments**: NC Lathing machine (12 units); Milling machine (02 units); Sawing machine (06 units); Forming machine (08 units); Pressing machine (02 units); Lathing machine (15 units);
- **Main customers**: Showa Vietnam; Showa Do Brazil; KYB Vietnam; Toto Vietnam; FCC Vietnam; Mitsuboshi MFG Vietnam
- **Export experience**: Thailand; Brazil

Minh Tri mold specialize in plastic injection mold. We can make various mold for plastic products: household, Plastic products for medical & foods, automotive parts,...
All made to customer specifications & we offer full service: Design product – Make mold
Minh Tri Mold expect to supply mold products with High quality, good leadtime & competivie price.

MO TIEN established in 1997, and now with more than 10 years of manufacturing, Mo Tien is one of professional company specialized in designing and manufacturing variety of molds and plastics household wares.

Namson Technology – Engineering Company Limited was founded on September 12th, 2002. With over 16 years of development to become one of Vietnam’s leading experts in laser technology industry (providing laser system and related services), Namson Laser has undergone such a challenging period. Namson has gradually expanded its operation scale and cooperation relationship to obtain such considerable achievements as it is today.

- **Established year:** 2002
- **Number of permanent employees:** 59
- **Turnover:** 2.7 million USD
- **Standards:** ISO 9001:2015; 5S
- **Main products:** Laser machines: Laser Fiber Marker; Laser Cutter; Laser Welding; Laser Cleaning
- **Main customers:** Nidec; Asuzac; Soltec; Schneider; GS battery
- **Export experience:** Japan; Thailand; Germany

Newtek Vietnam is leading storage rack and super market manufacturer with factory in Thang Long Industrial zone, Vietnam. With complete production lines consist of press-breaker, stamping, folding, welding, painting Robot automatic line European technology that ensures a uniform and high quality product. Compared with the products of foreign manufacturers, NEWTEK shelves haven’t yet reached the sophistication, form fashion. But the technical quality is not inferior. A core technical team, 20 years in the profession will accompany Customer during deployment and implementation.; monthly maintenance and repair; counseling and monitoring the quality of the product in use. Quality is our Strategy. NewTek will continue research and develop to come out products of higher quality. Fast production.

- **Established year:** 2009
- **Number of permanent employees:** 100
- **Turnover:** 4 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Gondolas; Rack; Shelves; Cabinet; Cable Cap; Metal pallet; Customized Mechanical parts
- **Main technology and equipments:** Milling machine (1 unit); Sheet cutting machine (3 unit); Lathe machine (3 units); Punching machine (15-110T) (10 units); Bending machine (30-200T) (8 units); Welding machine Tig- Mig- Spot (25 unit); Rolling forming machine (3 units); Automatic Painting line (2 units)
- **Export experience:** Japan
Ngo Gia Tu is an automobile parts manufacturing company. One of our sells point is possessing Bimetal Vertas-Certification. Because of such certification, we have been process and manufacture bimetal products, especially bus parts, for countless years. We are aware of manufacturing products which can decide customers' lives. In addition, keeping such responsibility in mind, we promise to keep high end quality products.

Nhat Long mechanical engineering established in producing mechanical parts (industrial componments), spare parts. With 15 years of experiences, Nhat Long always brings satisfaction to customers. Our workshop with equipments as well as our skilled staff always meet all customers' requirements. Nhat Long updates continuously technical innovation, invests new technology and improves product quality. Nhat Long operates with JIS, 5S... aim to high quality and precise products standards.

Main technology and equipments: Pressing machine; welding machine
Main customers: Companies which manufacturing engine, engine parts, maintenance and repair

Established year: 1999
Number of permanent employees: 34
Turnover: 3 million USD
Standards: 5S; JIS
Main products: Mechanical parts for industrial machines; Spare parts for industrial machines; Mechanical parts; Mould; Jig; Industrial equipments
Main technology and equipments: Lathe machine (16 units); CNC Turning machine (7 units); Milling machine (15 units); CNC Milling machine (5 units)
Main customers: Danang Rubber; Phung Hiep; CASUMINA; Toshiba Asia; Cxtechnology Vietnam
Export experience: Japan, Korea
Nhat Minh Design Manufacturing Co., Ltd specializes in precision mold and machining of high-tech plastic parts. All of staff is a collection of experienced people. We are the same ambition to bring the mold and plastic industry to reach a new higher with a brand “Vietnam mold – plastic”

We can provide to our customers with a comprehensive solution ranging from product design, mold design, mold making, plastic molding and complete assembly of the product.

We constantly improve the technology, bring advanced production technology to the modern process of design, manufacture and production to improve the quality and reduce costs, to meet the expectations of customers.

- **Established year:** 2007
- **Number of permanent employees:** 100
- **Turnover:** 2.5 million USD
- **Standards:** ISO 9001:2015

As enterprises cooperation with Vietnam – a Japanese company specializing in providing chemicals and technical advice technology – specialized operations plating products with high technical quality standards of Japan, such as: Hard chrome; Electroless nickel; Bright Nickel; Nickel chrome; Black zinc Cr3+, blue-white zinc Cr3+, colour zinc Cr3+; Stainless steel Electropolishing

With 100% of the raw materials used are imported from Japan and Europe and America. Plated and finished water tested by machine laser performance measurement FISCHER X-RAY XDL-B. Phan Sinh Company Limited believes in the development of his are very pleased to partner with clients in the same direction to the future to meet the increasing demands of the market.

- **Established year**: 1994
- **Number of permanent employees**: 45
- **Turnover**: 1 million USD
- **Standards**: ISO 9001:2015
- **Main products**: Plating products; Plating service: Hard chrome; Electroless nickel; Bright Nickel; Nickel chrome; Black zinc Cr3+, blue-white zinc Cr3+, colour zinc Cr3+; Stainless steel Electropolishing
- **Main technology and equipments**: X-Ray machine (1 unit)
- **Main customers**: Juki Vietnam, Fujikura, Konica, Nidec Sankyo, Toyo Precision, Tazmo Vietnam, Hirot
- **Export experience**: Japan, ASEAN

Pho Yen mechanical joint-stock company (FOMECO) specialises in Ball Bearings; Motorbike parts; Construction parts with highly-skilled employees, modern equipment and machinery of which products branch always satisfy its customers' needs in terms of quality, price and delivery service as well as after-sale services. The distribution channels of company have been developed in all the country but we also focus on exporting.

With the company's strategy known as "Quality beyond expectations, power and durability to customers", FOMECO has always tried to offer perfect servicer, best quality and economical products to its customers. FOMECO is going to become a leading supplier of ball bearings and mechanical products in Vietnam.

- **Established year**: 1974
- **Number of permanent employees**: 960
- **Turnover**: 23 million USD
- **Main products**: Ball Bearings; Motorbike parts; Construction parts
- **Main technology and equipments**: Forging and Pressing Machine (130 units); Milling machine (50 units); Drilling machine (45 units); Grinding machine (150 units); Lathe machine (360 units); Welding machine (40 units)
- **Main customers**: Honda; Daiwa; Yamaha; IKO; Hilex; Nippo; Showa; Suzuki; Exedy; Stanley; Panasonic; Ulvac
- **Export experience**: EU; Japan; ASEAN
Established 1995, Phong Nam – Sinhirose Co., has been developed unceasingly, accelerating its growth rapidly, As of today, Phong Nam – Sinhirose Co., Ltd. is one of the leading plastics companies in North Vietnam. Owner capital is at 1,100,000 USD. Total revenue in 2018 reached 7,000,000 USD. Total workers and official staff are 220 people. Our main products are:
- Plastic products and mould design and producing
- Industrial plastic producing
- FOLIN trademark plastics products (Paint buckets, Food tray, plastic boxes for industry,..)
- OEM plastic products

- Established year: 1995
- Number of permanent employees: 220
- Turnover: 7 million USD
- Standards: ISO 9001:2015
- Main products: Paint pails; Industrial containers; OEM plastic products; Food tray; Plastic mould
- Main technology and equipments:
  - Plastic Injection machine (60-850T)(30 units);
  - Machines for mould making (40 units);
- Main customers: Honda Vietnam; Ariston Vietnam; Tokaitrim Vietnam; TS Interseat Vietnam; Muto Vietnam; Jozpec
- Export experience: Japan

PHP Vietnam Create Jsc. specializes in mechanical manufacturing, main products is: (1) voltage stabilizer cover, electrical equipment cover, electrical cabinets, console; (2) Trough for cables, ventilation systems; (3) Electrical cabinets for telecommunications networks; (4) Processing pipe steel products and box steel; (5) powder coating. We can meet various requirements from design stage to assembling.

- Established year: 2009
- Number of permanent employees: 45
- Turnover: 2 million USD
- Standards:
- Main products: electrical panel; metal products
- Main technology and equipments:
  - Pressing machine (45 units); CNC Punching machine (2 units); CNC Bending machine (2 units); Cutting machine (2 units);
- Main customers: Lioa; Nhat Minh; Viettel
Phumy Co., Ltd was established on 4 July. Phumy is a small enterprise but always provides products and services which optimizes, satisfies requirements of customers. Our motto: "Prestige and quality is our existence."

- Established year: 2006
- Number of permanent employees: 35
- Turnover: 280,000 USD
- Standards: 5S
- Main products: jig & molds; machine parts;
- Main technology and equipments:
  CNC lathe, milling, cutting, welding machines (8 units); Instruments (Clock; 3D) (12 units)

The company has 30 years of experience in electronic engineering, from design to final products, good quality, reasonable prices, on-time delivery.

- Established year: 1985
- Number of permanent employees: 60
- Turnover: 1 million USD
- Standards: ISO 9001
- Main products: Precision metal parts; Plastic parts for electronics industry and other industries
- Main technology and equipments:
  Plastic injection machines (7 units); CNC Milling machine (3 units); EDM (1 unit); other machines (20 units)
- Main customers: Global; Fuji Impulse; Marshall; VTB; PDI
- Export experience: Japan; Netherland; USA; Canada

PAPM Jsc. is designing and manufacturing different type of moulds/dies/tools/jigs/equipments/spareparts since 2007. In addition, sheet metal forming, tube forming and Electroplating anode casting are our important business as well.

PAPM company holds many advanced and precision equipments imported from German and Japan. At present, in order to meet customer’s demands and increase our management capabilities, we are applying for ISO9001:2015 certification.

We already enjoying good reputation among our valuable customers for the high quality, competitive price, timely delivery and good after-sale service.

- **Established year:** 2007
- **Number of permanent employees:** 90
- **Turnover:** 1.5 million USD
- **Standards:** ISO 9001:2015; 5S
- **Main products:** Moulds; Dies; Jig; Equipments; Spareparts
- **Main technology and equipments:** Flat grinding machine; High speed machine center; Milling machine; CNC turning machine
- **Main customers:** Honda Vietnam; Machino Auto parts; ABB Vietnam; Enkei Vietnam; Foster Vietnam

PMTT GROUP is originated from Precision mechanics and technology transfer JSC., which was established in 2006. Currently, PMTT GROUP has had 3 subsidiaries namely PMTT, PMTT Automation, PMTT Trading.

During the group’s growth and self-positioning efforts with a motto of satisfying customers’ utmost demands, PMTT GROUP has successfully so much trustworthiness from customers in industrial zones, especially foreign enterprises and become one of the leading enterprises in processing engineering products, accurate engineering, mechanic designs, automated conveyor belts, and trading in industrial engineering products.

- **Established year:** 2006
- **Number of permanent employees:** 200
- **Turnover:** 4.7 million USD
- **Standards:** ISO 9001
- **Main products:** Jigs; Spareparts
- **Main technology and equipments:** Punching machine (1 unit); Folding machine (1 unit); Milling machine (1 unit); Turning machine (1 unit); Wire cutting machine (6 units); CNC Milling machine (5 units)
- **Main customers:** Sumitomo; Samsung; Panasonic; Meiko; Mogami; Toyada Gosei
Prodetech joint stock company specializes in manufacturing, supplying machinical and electrical materials and becomes one of the top electrical contractors in Vietnam. With the quality management system ISO 9001:2015, our company has become a manufacturer and reputable contractors for domestic and foreign companies such as Japan, Myanmar, Thailand, Malaysia Laos and Cambodia.

Our company supplies products such as: cable ladder, cable tray, vents, duct, electrical cabinets, thermal insulated materials. With the design method, manufacture, package construction, along with a team of managers, engineers, good workers, Prodetech.JSC committed to satisfy high requirements of customers.

With the best effort of all employees and service structure with increasingly distribution network services expanding across the country, Prodetech.JSC will continue to confirmed its position in the market of the M&E Vietnam and international market.

Quang Pho technical & technology Co., Ltd, a manufacture enterprise was established in 1993 based on Quang Pho co-operative. The company’s long term target is specializing in manufacturing mechanical products to meet the demand of national economic and export. The company’s traditional product are highly accurate small group mechanical parts, many kinds of gear with small module (from watch gear size to above). The company are using Japanese, Swiss specialized machinery, equipment, technology system and skillful workers trained in foreign country with many experience years in this field.

- **Established year:** 1993
- **Number of permanent employees:** 50
- **Turnover:** -
- **Standards:** 5S
- **Main products:** Metal parts; Movement structures; Precision instruments
- **Main technology and equipments:** pressing machine (6 units); CNC Lathe Machine (3 units); Vertical Milling Machine, Horizontal Milling Machine (3 units); Grinding Machine (3 units); Lathe Machine (4 units)
- **Main customers:** V-Standa; Pegasus; Protec

Mechanical Engineering and Metallurgy Joint Stock Company - SADAKIM - is a former of Mechanical Engineering and Metallurgy factory belong to VietNam Steel Corporation. Our company specializes in production iron casting, carbon steel and stainless steel casting and nonderror casting in accordance with Vietnamese and other country standards. Also, its other advantages are machining, fabrication, electro-slag remelting, forging, heat treatment products for domestic and oversea customers.

- **Established year:** 1977
- **Number of permanent employees:** 265
- **Turnover:** 12 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Casting products; Mechanical products (Mill roll; Motor case; Brake disc); Fabricating products
- **Main technology and equipments:** CNC Lathe machine (4 units); CNC Milling machine (5 units); Turning machine, milling machine, plating machine (50 units)
- **Main customers:** Companies in Steel, rubber, sugar industries
- **Export experience:** Japan; Canada
Established in 1979, with more than 25 years of experience, Sang Tao has contributing to the enhancement of life quality and become one of the most prestige brands in Vietnam.

Our core business:
- Solutions for low voltage power supply and automation: main switchboards, distribution boards, motor control centers, PLC panels.
- Cable management systems: cable ladder, cable tray and cable trunking systems
- Sheet metal fabrication.

Established in 1992, with more than 25 years of experience, Sang Tao has contributing to the enhancement of life quality and become one of the most prestige brands in Vietnam.

Our core business:
- Solutions for low voltage power supply and automation: main switchboards, distribution boards, motor control centers, PLC panels.
- Cable management systems: cable ladder, cable tray and cable trunking systems

Saigon Mechanical And Casting Joint Stock Company (Sameco) former is Saigon Machine-Building company that was established since. We have nearly 30 year making business in Vietnam’s market as well as oversea’s market such as: Japan, Korea, Germany, Australian, Switzerland......

Our manufacture is closed from casting, processing, cutting, pressing, bending... to have complete products with high precision and aesthetic in order to satisfy our customer.
Sapa Ben Thanh Aluminium is currently the only extrusion plant of Sapa Group- the world leading aluminium solutions provider from Norway- in South-east Asia. Given the 20-year experience in the local production, we are well-known as a professional partner and top-quality supplier through the sustainable and creative aluminium solutions. Sapa BTG Vietnam offers our customers the extruded aluminium profiles with a wide range of applications from building & construction, furniture, consumer, industrial, electric, electronics, transport, automotive, marine, wind tower, solar frame and so on. Besides the local market, we are also exporting to USA, Canada, Europe, Japan.

SEIKI Innovations Vietnam Co.,Ltd. is mechanical manufacture professional supplying of ancillary industries especially in precision engineering for sheet metal processing and metal bars. We’re supplying product - service in many areas: machinery, electronics, electrical, construction, medical industry, food industry... and complete manufacturing: Concepts – Engineering - Manufacturing – Coating – Assembly. We provide a variety of enclosures with various finishes. Even small order quantity we can do with the same precision. Our motto is “Global Quality with Local Price”.

Established year: 1996
Number of permanent employees: 250
Turnover: 6 million USD
Standards: ISO 9001:2015; RoHS
Main products: Aluminium profiles for building & construction, furniture, consumer, industrial, electric, electronics, transport, marine, wind energy, solar energy
Main technology and equipments: Aluminium Pressing machine (7 inch; 8/9 inch) (2 units); Anodizing line (1 unit); Fabrication shop (1 unit)
Main customers: Siemens, Panasonic, IKEA, Phillips, Hafele
Export experience: USA, Canada, Europe, Japan

Established year: 2015
Number of permanent employees: 60
Turnover: 1.3 million USD
Standards: ISO 9001:2015; JIS
Main products: Sheet metal parts; Metal parts; Electrical box; Machine base frame, cover
Main technology and equipments: CNC punching machine (1 unit); CNC Stamping machine (4 units); Bending machine (2 units); Welding machine (14 units); Tapping machine (1 unit); Powder painting line (1 unit)
Export Experience: Japan; Korea; Switzerland; USA; EU
Smart Vietnam is the leading supplier and manufacturer in supporting industry. Our main businesses include:

- Precisely mold making & part machining
- Plastic injection
- Sheet metal fabrication
- Fasteners trading.

Established year: 2008
Number of permanent employees: 200
Turnover: 6.5 million USD
Main products: Precision parts; Mold; Sheetmetal products; Plastic parts; Fasteners
Main technology and equipments: CNC machine (4 units); EDM (3 units); Wire cut machine (1 unit); CNC drilling machine (2 units); Punching machine (1 unit); Bending machine (1 unit); Plastic injection (9 units);
Main customers: Panasonic; Canon; Toshiba; Denso; Daikin

SOUTHERN VIETNAM ENGINE AND AGRICULTURAL MACHINERY CO., LTD

Quarter 1, Binh Da Ward, Bien Hoa City, Dong Nai
Tel: +84-2513-838 727
www.sveam.com
sveam@vnn.vn

SVEAM is specializing in manufacturing diesel engines, agricultural machinery and other equipments for agriculture, forestry and fisheries fields and processing spare parts according to customers’ orders. Annually, SVEAM supplies around 60,000 engines and 35,000 machines for agricultural field. Moreover, SVEAM still supplies all OEM products for big manufactures in Japan and Korea.

With modern equipments and advanced management system, SVEAM wishes to look for suppliers who could supply components, spare parts as well as send us orders to process spare parts on requirement.

- **Established year:** 1967
- **Number of permanent employees:** 480
- **Turnover:** 25.5 million USD
- **Standards:** ISO 9001:2015; ISO 14001: 2015
- **Main products:** Diesel engine; Gasoline engine; Rubber roll; Rice milling machine; Agricultural Machinery
- **Main technology and equipments:** CNC machining center (40 units); Universal milling machine (10 units); Drilling machine (22 units); CNC Turning machine (26 units); Presser (20 units)
- **Main customers:** Toshiba Vietnam; Honda; Bonfiglioli; Yamabiko; Juki
- **Export experience:** Japan, Singapore, Srilanka; USA; Thailand; India

Tam Hop is becoming one of Vietnam's top enterprises in processing and manufacturing metal products
- Providing high quality products to customers and getting the highest customer trust
- Building cohesion, dedication and creativity of individuals and collectives to promote sustainable development.

- **Established year:** 1995
- **Number of permanent employees:** 180
- **Turnover:** 2.5 million USD
- **Main products:** Chair’s frame for cars
- **Main technology and equipments:** Robot welding machine (2 units); Spot welding machine (5 unit); Stamping machine (25 units)

Tam Hiep Thanh Private Enterprise:
- Able to make patterns and casting design.
- Able to produce FC (150-300) & FCD (450-600)
- Experienced in exporting.
- English speaking.

• Established year: 1999
• Number of permanent employees: 100
• Turnover: 2 million USD
• Standards:
• Main products: Machinery parts and spare parts made with cast-iron; Cast-iron parts used for water section
• Main technology and equipment:
  Furan-sand Mixer (1 unit); Shot-Blasting Machine (2 units); Processing machine (8 units)
• Main customers: SVEAM; Tuan Duc; Fujiura; Daimon; STK; Shin Jung, Toyo Chuzo, Tsugihashi
• Export experience: Japan, Korea

TAM PHAT.,JSC was established with a team of employees over 15 years of experience in the field of electrical automation - controller and distributor products such as OMRON, Mitsubishi Electric, Yaskawa Electric. We specialize in manufacturing and assembling electrical panel cabinets, control cabinets, cable trays and automation solutions, system integration, technical consultancy and project implementation in the field of automation, measurement applications, application of robots in industrial production lines and production automation.

• Established year: 2014
• Number of permanent employees: 15
• Turnover: 800,000 USD
• Standards: ISO 9001: 2015; 5S
• Main products: Electric rack; Electric control panel; Electric cabinet; Electrical and automation devices
• Main technology and equipment:
• Main customers: Toto Vietnam; Toyota Vietnam; Denso Vietnam; Toyo Ink Vietnam; Almine Vietnam
• Export experience: Japan; USA; Korea

- Main customers: Canon Vietnam; Denso Vietnam; Samsung Vietnam; Toyota Vietnam; Toyoda Gosei, Foster

TDH is an enterprise operating in the field of trading and manufacturing industrial supporting products. Our main business is designing, manufacturing and repairing all kinds of furnaces (metal melting furnace, drying furnace, heat treatment furnace, holding furnace...) besides supporting industrial products: seamless rollers, conveyor system, table manipulation, shelves for goods, trolley...

TDH Vietnam's products have met the requirements of domestic and foreign customers such as Belgium, Poland, Japan, Korea and China.

With a dedicated staff, constantly improving machinery and equipment system, always committed get quality to build reputation and trust with customers, actively contribute to building community development, environmentally friendly, TDH Vietnam is always ready to meet all needs from customers.

- Established year: 2014
- Number of permanent employees: 36
- Turnover: 1.2 million USD
- Main products: Industrial furnaces; Mechanical parts: Seamless rollers, conveyor system, trolley, machining parts
- Main technology and equipments: CNC Punching machine (1 unit); CNC Bending machine (1 unit); CNC Cutting machine (1 unit); CNC Milling machine (5 units); Lathe machine (1 unit); Milling machine (3 units); Welding machine (10 units); Punching machine (3 units)
- Main customers: Tokai Coporation
- Export Experience: Japan; Belgium; Poland
TECHNOKOM JSC.

TECHNOKOM JSC., specializes in manufacturing of automotive and motorcycles metal parts including stamping, welding and polishing products.
We supplied to many companies in Honda, Yamaha in Vietnam and export metal parts to Europe and America.
We have achieved ISO 9001:2015, ISO 14001:2015 and are building IATF 16949: 2016 in our management system.
Our motto is always satisfy the customers with stable quality, reasonable price and on-time delivery.

- Established year: 2010
- Number of permanent employees: 485
- Turnover: 5 million USD
- Main products: Parts of motobike: Handle comp; Muffler; Parts of muffler; Parts of stand comp main; Parts of main pipe comp
- Main technology and equipments: Pressing machine (22-110 tons) (39 units); Wire cutting machine (1 unit); CNC Lathe machine (10 units); Robot welding machine (20 units)
- Main customers: Goshi Thang Long Auto parts; ITP
- Export experience: USA, Norway

TEP CO., LTD

Tep co., LTD, is a innovative business that designs and manufactures high quality products as:
- Industry-roller, conveyor
- Dust collector, Filtration equipments and accessories
- Supporting-industry equipments and accessories
We provide perfect service that includes solution, design, manufacture, supply, instalation, warranty and technical support at everytime for all customers.
Tep co., LTD has a technological leader in environmental equipment and dust collector.
We are always highly trusted and appreciated by domestic and foreign customers.

- Established year: 2008
- Number of permanent employees: 68
- Turnover: 2.6 million USD
- Main products: Mechanical parts; Rollers; Conveyor; Dust collector system
- Main technology and equipments: Grinding machine (6 units); Lathe machine (15 unit); Milling machine (9 units); Welding machine (36 units); Plasma cutting machine (10 units); Sawing machine (2 units); Painting system (1 unit);
- Main customers: Yamaha; Hoa Phat; Nghi Son
- Export Experience: Peru; Philippine; Srilanka

Thang Long metal wares company is a state-owned enterprise under the Hanoi service of industry, specializing in the manufacture of household utensils and machine parts from metal sheets with the application of punching and hammering technology. The products are then protected and decorated by employing the technologies of plating, enameling, painting, polishing and other advanced technologies. Equipped with modern facilities and all-purpose production lines, the company is capable of manufacturing 15 million - 20 million complete product units of over 300 categories a year.

- **Established year:** 1969
- **Number of permanent employees:** 2029
- **Turnover:** 42 million USD
- **Standards:** ISO 9001:2015
- **Main products:** machine parts; motobile parts; household productions
- **Main technology and equipments:** Automatic Welding machine (30 units); Pressing Machine (100-1000 tons) (10 units); Milling machine (4 units)
- **Main customers:** Honda Vietnam; IKEA; Goshi Thang Long
- **Export experience:** Japan

Thanh Luan Company specializes in electroplating and metal surface treating. We have over thirty years of experience in this field with our background as a former electroplating department of SONY Electronics Vietnam. With the quality management system ISO 9001 - 2008, we have established a high reputation among long term customers from Japan, Germany, South Korea, Taiwan, etc. Our services include galvanizing, multi-layered plating: Copper - Nickel - Chrome, nickel plating, tin plating, copper plating, silver plating, plastic plating, antique treatment, and colored anodized aluminum.

- **Established year:** 1999
- **Number of permanent employees:** 120
- **Turnover:** 1 million USD
- **Standards:** ISO 9001:2015; RoHS; JIS
- **Main products:** electroplating products and metal surface treating products; electroplating services
- **Main technology and equipments:** Automatic Plating line (8 units); PlatingTesting Equipments (1 unit); Milling machine (4 units)
- **Main customers:** ABB Industrial Vietnam; Siemens Corp Vietnam; Mitsuba M-Tech Vietnam; Lidovit; Philips Co.
- **Export experience:** Japan; Korea; USA; EU;
TP Precision Co., Ltd is a manufacturing company specialized in making high precision machined components by Swiss Automatic Lathes and CNC machines originated from Switzerland and Japan. Our machines are operated by 10 years experienced technical and qualified team that assured each of our products is built to the highest quality with competitive price and on-time delivery.

We can make small diameter parts (from 0.5 - 38mm by Swiss Automatic Lathes and from 0.5 - 20mm by CNC Machines) attained high precise tolerance (±0.01mm for Swiss Automatic Lathes and ±0.005mm for CNC machines) with quality from 100 to millions from many types of materials: Brass, Aluminum, Steel, Stainless Steel, Titan, POM...

Our Products are used in many high tech sectors, including Aerospace, Defense, Medical equipments, Automobiles, Motorcycles, Electronics, Telecommunications, Optical equipments, micro-mechanics, Household equipments,...and other industries.

- **Established year:** 2011
- **Number of permanent employees:** 45
- **Turnover:** 600 000 USD
- **Standards:** ISO 9001:2015
- **Main technology and equipments:**
  - CNC Swiss Type Automatic Screw Machine (1); Swiss Type Automatic Screw Machine (29)
- **Main customers:** Namilux, East West Industries, Fujikura Fiber Optics...
- **Export experience:** Japan, ASEAN, USA, EU

Established in 1986, Thu Duc Textile Garment Engineering Company (Texenco) specializes in mechanical processing; casting; plating; cooling system and installing electrical system for workshop.

The Texenco facilities:
- Machinery workshop: With the complete line - forging, stamping, welding, lathing, Milling, Plating, Grinding, CNC machine .....  
- Foundry: With medium frequency furnace twin bodies, Shell molding machine, Lost Foam Line, Core blower machine for alphaset with vibrator, sand blast, Pattern make equipment system....
- Plating shop: Chrome, Nickel decoration, hard chrome plating by electro plating. Rotate plating process. Market: 35% for domestic market, 65% for export (USA, Japan, Korea, Australia, Sri Lanca, Cambodia, Netherland...)
THUAN PHAT MECHANICAL CO. LTD

To provide the best products quality and reasonable price, Thuan Phat always focused on investment and development of machinery, equipment, human and quality management system.
For many years, Thuan Phat has designed, produced, supplied alot of high technical components and parts for manufacturing of steel, cement, paper and other industries.
The trust of customers is always a development motivation of Thuan Phat, as the motto of company: "The success of our customers is our purpose"

- Established year: 2011
- Number of permanent employees: 75
- Turnover: 2.5 million USD
- Standards: ISO 9001:2015
- Main products: Mechanical components for steel, cement, paper industry
- Main technology and equipments:
  CNC milling center (2 units); CNC lathe center (2 units); Grinder machine; Drilling machine and other machines
- Main customers: Bai Bang Paper; Thai Nguyen Steel; Futu 1; Diesel Song Cong; Kyoei Steel

TOAN CAU MECHANIC- ELECTRICAL JSC.

Founded in 1993, TOMECO Mechanic Electrical.,JSC now has 3 subsidiaries TOMECO An Khang.,JSC , TOMECO Mechanical Services and Southern Branch in Ho Chi Minh.
TOMECO's industrial fan and mechanical products for supporting products have provided thousands of factories, buildings in Vietnam as well as exported to important markets such as: English, USA, Australia...
Especially, since 2012, TOMECO has officially become a member in the global supply chain of the General Electric Corporation, constantly providing more than 1,000 products every year with absolute stability in quality for projects around the world of GE Corporation.

- Established year: 1993
- Number of permanent employees: 130
- Turnover: 6.4 million USD
- Standards: ISO 9001:2015
- Main products:
  Industrial Fan; Industrial Centrifugal Fan; Environment Treatment Equipment; Mechanical parts
- Main technology and equipments:
  Cutting, Bending, Forming machines (10 unit); CNC Machining Center (3 units); Laser cutting machine (1 unit); Welding machine (25 units); Power coating line (2 unit);
- Main customers:
  Greens Combustion; General Electric; Eilbeck Crane; Hoa Phat; Alphanam
- Export experience: USA
Tools Joint Stock Company No.1 was established in 1968, currently is the only manufacturer in Vietnam specializing in producing cutting tools for mechanical division. With modern machinery imported from Germany, Switzerland, Australia, we commit to provide quality products with competitive price.

- **Established year:** 1968
- **Number of permanent employees:** 100
- **Turnover:** 1 million USD
- **Standards:** ISO 9001:2015
- **Main products:** HSS&Carbide End Mill; Machine Taps; HSS& Carbide Drill; Chipper Knife
- **Main technology and equipments:** CNC Grinding Machine 6 axes (1 unit); CNC Grinding Machine 5 axes (1 unit); CNC Grinding Machine 3 axes (1 unit)
- **Main customers:** Musashi Auto Parts Vietnam; Fujico Vietnam; Thanh Thanh Dat; Hanoi Plastic; Dong Anh chain & Freewell; etc

Established in 2006 with slogan “Create your values”, Tri Cuong Industrial (TCI) Co., Ltd has been becoming a leader in designing and manufacturing various types of precision parts, factory equipment and custom automation in Vietnam. We offer full service of consultancy, design, manufacturing, installation and maintenance. To the end of 2014, we have well installed more than 800 projects for Foreign Direct Investment (FDI) companies in Vietnam and exported products to Japan & Europe.

- **Established year:** 2006
- **Number of permanent employees:** 230
- **Turnover:** 6.5 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2015; Lean
- **Main products:** Designing & assembling automation system; Jigs; Machined parts;
- **Main technology and equipments:** CNC milling machine (30 units); CNC lathe machine (12 units); Grinding machine (4 units); Wire cutting machine (3 unit); EDM (2 unit)
- **Main customers:** Toyota equipment; Meiko; Stanley; Yamaha; ABB; Canon; Sumitomo
- **Export experience:** Japan; Korea; EU; Malaysia; India
For over 20 years of experience, Truong Phat Joint Stock Company confirms its prestige and quality in the market and has successfully created Trade Mark of Truong Phat in the support industry. We are proud to be selected as the main supplier of big partners such as: Nhat Linh Company, ComaTel Telecom Company, Hoang Lien Son Porcelain Company, M3 Information Factory (under the Ministry of Defense), . . . Currently, with the team of nearly 200 highly professional and skilled officers and employees, the professional management system, Truong Phat Joint Stock Company was appreciated to be one of the enterprises doing business and manufacturing most effectively in the mechanic field.

- **Established year:** 2002
- **Number of permanent employees:** 200
- **Turnover:** 2 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Mechanical Parts; Petroleum Equipments; Electric Equipments
- **Main technology and equipments:** Punching Machine; Welding Machine; Hydraulic Press; Machine folding Shock; Drilling Machine
- **Main customers:** Nhat Linh Company; ComaTel Telecom; Hoang Lien Son Porcelain; M3 Information Factory
- **Export experience:** USA

Established in year 2010 with paid up capital 45,000,000,000VND. Work force: 80 employees
Core Business:
1) Trading materials, spare parts and equipments to industry especially automotive
2) Produce and supply bolt, screw and pin for automotive industry
3) Logistics: Transportation and Warehouse
4) Fabrication and manufacturing works: tank, steel structure, trolley, jig and plastic box
5) M&E Contractor: Design, manufacture & install machine/equipment

- **Established year:** 2010
- **Number of permanent employees:** 150
- **Turnover:** 5 million USD
- **Standards:** JIS; HES; YGK; KES; DIN
- **Main products:** Bolt; Screw; Nut; Pin
- **Main technology and equipments:** Forming machine (4 units); Rolling machine (10 units)

Van Xuan specialises in design, making die mold and tools for accurate instruments and equipments: mould for forging; pressing; casting... Processing, testing jigs; Other special mechanical instruments.

Van Xuan is a member of MEINFA joint stock Company - who has been established in 1975, and has specialized production at medical instruments and equipments. That advantage help us great practical experience at making die-mold and tools for accurate instruments and equipments.

- **Established year:** 2005
- **Number of permanent employees:** 105
- **Turnover:** 3 million USD
- **Standards:** 9001:2015; 5S
- **Main products:** Hot Forging Mould
- **Main technology and equipments:**
  - CNC Machining Center 5-Axis; Wire Cutting Machine; CNC Milling Machine; Vacuum Heat Treatment Furnace; CNC Grinder
- **Main customers:** Meinfa, Futu 1; Fujita; Kyoel; ABB; Disco

Founded in 1999, VF Décolletage Co., Ltd. is a company specializing in Swiss Screw Machine products with a registered capital around USD 1,000,000. We are the first company in Vietnam manufactured Precision Swiss type parts by Swiss Automatic Lathe and CNC machines.

Our machines can make parts with small diameter (from 0.5mm) and high precise tolerance (005mm).

Our products could be used in many Industrial applications such as: Micro mechanics, Telecommunication, Medical, Dentist Equipment, Tire molds, Household appliances, Automobile, Motorbike, Electronics, Optical. We are also a reliable supplier for many Japanese, Korean, Taiwanese companies which located at Export Processing Zone and Industrial Zone in Viet Nam.

- **Established year:** 1999
- **Number of permanent employees:** 200
- **Turnover:** 2.7 million USD
- **Standards:** ISO 9001:2015
- **Main products:** metal parts for Micro Mechanics, Telecommunication, Medical, Dentist Equipment, Tire molds
- **Main technology and equipments:**
  - Swiss type Automatic Screw (77 units); CNC Swiss Screw (18 units); CNC Milling (6 units)
- **Main customers:** Yamaha Vietnam; Harada; Daiwa Vietnam; Toyo Denso

VIET DUC WELDING ELECTRODE JSC.

Established year: 1967
Number of permanent employees: 260
Turnover: 14 million USD
Standards: ISO 9001:2015
Main products: Welding consumables (welding electrode; welding wires)
Main technology and equipments:
Main customers: Honda, Yamaha, Dong Anh Trade and Travelling
Export experience: Taiwan

VIET EMPIRE CASTING CO., LTD

Established year: 2006
Number of permanent employees: 90
Turnover: 4 million USD
Standards:
Main products: Low pressure casting machine; Precision parts; Welding parts
Main technology and equipments: CNC milling machine (17 units); CNC lathe (5 units); CMM Mititoyo (1 unit);
Main customers: -
Export experience: USA; Mexico; China; Japan; France

The company was established in March 2006 by a group of Vietnamese Americans from California, USA. Viet Empire has 2 main businesses:

1. Providing contract manufacturing and electro-mechanical assembly services to customers worldwide. Manufacturing from small parts of precision machined single parts to assembly of modules, to manufacturing and testing of complete machines
2. Design and manufacturing of products of machines and equipment for customers: low pressure and gravity casting machines for the production of automobile aluminum parts, automatic guided vehicles, 3D printers, conveyors, ...

Viet Duc Welding Electrode Joint Stock Company (VIWELCO) manufactures and supplies various kinds of welding consumables such as covered electrodes, flux and wires on both inside and outside markets.
Established in 1995 Viet Ha Co., Ltd is specialized in manufacturing and distributing hydraulic cylinder and hydraulic system includes: Manufacturing Hydraulic Cylinder, Designing and manufacturing of hydraulic system: hydraulic mini power units Authorized distributor of pumps, valves for Rexroth Bosch (Germany), and gearbox, motor for Nord Drivesystems (Germany)

- Established year: 1995
- Number of permanent employees: 40
- Turnover: 1.4 million USD
- Standards:
- Main products: Hydraulic cylinders; Hydraulic power mini units
- Main technology and equipments: Milling machine (2 units); CNC lathe (4 units)
- Main customers: -
- Export experience: Netherland; Czech

Viet Han Electric Co. Ltd. specializes in manufacturing electric cabinet and electric equipments. Our products include cabinets, electricity devices, automation equipments, industrial equipments for electricity project, communication, industry...

- Established year: 2000
- Number of permanent employees: 34
- Turnover: 5 million USD
- Standards: ISO 9001:2015
- Main products: Electric cabinet; Electric equipments
- Main technology and equipments: Punching machine (7 units); Welding machine (6 units); Compressor (5 units) Bending machine (2 units); Electricstatic Painting System (1 unit)
- Main customers: Viettel; Vietnam Electricity Corporation
- Export experience: Korea
Viet Standa JSC. is an enterprise of diversified business in the fields of automatic voltage stabilizer, transformer, air conditioner, home appliances and sheet metal processing. Main products of company are automatic voltage stabilizer and transformer under STANDA brand name. Our company has been one of some leading AVS and transformer manufacturer in Viet Nam.

Our sheet metal processing system used latest technology such as laser cutting machine, CNC punching machine, CNC bending, welding, etc to ensure accuracy of the sheet metal products.

- **Established year:** 2003
- **Number of permanent employees:** 400
- **Turnover:** 11 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Automatic voltage stabilizer; Transformer; Air conditioner; Home appliances; Sheet metal processing;
- **Main technology and equipments:** Pressing machine (10 units); Welding machine (9 units); Cutting machine (4 units); Bending machine (4 units); Grinding machine (4 units)
- **Main customers:** Petrolimex; Netcom
- **Export experience:** Myanmar

vietson@vietson.com.vn

Viet Son Machinery Manufactory Co., Ltd is a member of Vietsteel Group, specialize in precision machining; designing, making, supplying machine tools such as: Cut to length machines; Press brake machines; Folding, bending machines

- **Established year:** 2016
- **Number of permanent employees:** 20
- **Main products:** Precision mechanical parts; Cut to length machine; Folder machine; Press brake machine
- **Main technology and equipments:**
  - CNC milling machine (4 units);
  - Wire cutting machine (4 units);
  - Surface grinding (2 units);
  - CNC Milling machines (4 units), CNC lathing machine (3 units)
Viet Thai Electrostatic Painting Company invested and had four factories, specialized in some main sectors:
- Production of steel structures.
- Production of automobile chassis and automobile components.
- Production of motorcycle parts and electronic components.
- Production of paint & electrostatic painting service.

The company has applied management system according ISO 9001:2015; ISO 14001: 2015

Mutto of company: “Satisfaction of customers is the prosperity of company”.

- **Established year:** 1998
- **Number of permanent employees:** 400
- **Turnover:** 7 million USD
- **Standards:** ISO 9001:2015; ISO 14000:2004; 5S
- **Main products:** Steel construction; Automobile parts (chassis); Motorcycle parts; Electrostatic painting services;
- **Main technology and equipments:** Stamping machine; Milling machine; Electrostatic coating line; Cold Stamping machine
- **Main customers:** Sufat; Lifan; Phuong Dong; Cuu Long Motor
- **Export experience:** Thailand

Viet T.N Mechanical Technology Co., Ltd specialises in plastic injection molds, plastic injection mold details, assorted assembly jigs, measuring with high precision.

With the slogan “let’s build the best products to customer satisfaction,” the company has constantly upgrade their skills and improve the machinery and equipment..

- **Established year:** 2011
- **Number of permanent employees:** 15
- **Turnover:** 300 000 USD
- **Standards:**
- **Main products:** Plastic injection molds; Plastic injection molding details, Jig assembly.
- **Main technology and equipments:** CNC machining center (4 units); EDM machine (2 units); Surface grinding (3 units) Milling machines (3 units), lathes (1 unit)
- **Main customers:** Aureole Business Components & Co. Devices Inc.
VIET UC INDUSTRIAL AND COMMERCIAL JSC.

Viet UC Industrial & Commercial Jsc. specializes in molds manufacturing: plastic mold, pressing mold, casting mold... Moreover, our company produce precision metal parts, plastic parts, equipment and machinery for industrial manufacturing and construction.

With young and professinal staff, modern equipments, we always supply the best products for customers.

Our motto: Success and satisfaction of customers is our success.

- Established year: 2002
- Number of permanent employees: 100
- Turnover: 5 million USD
- Standards: 5S
- Main products: Molds for plastic and mechanical industry; Precision metal parts; Plastic parts
- Main technology and equipments: Drilling machine (6 units); Milling machine (5 units); Lathe machine (5 units); Punching machine (2 units);
- Main customers: Tan Phu Plastic; Jat; Technokom; LG Vietnam

Vietnam steel structures and lifting equipments Joint Stock Company was founded on September 15, 2006 with main products are non-standard cranes (gantry cranes, Portal Hydrolic Cranes, Goliath Crane, Overhead cranes, Underhung Cranes, Jib Cranes, Monorails...).

The ISO 9001:2015 is applied by our compan during designing and production activities.

Our products are applied in steel manufacturing, mining, oil explosion, cement, shipbuilding, thermal power plants, hydro power plants, handling materials, cargoes handling, construction site: precast yard, bridge building..

- Established year: 2006
- Number of permanent employees: 172
- Turnover: 11 million USD
- Standards: ISO 9001:2015
- Main products: Cranes; Steel structures
- Main technology and equipments: CNC machining center (2 units); Cutting machine (9 units); Welding machine (13 units); Lathe machine (2 units); Drilling machine (3 units); Milling machines (3 units), lathes (1 unit); Grinding machine (31 units); Shotblasting machine and painting machines
- Main customers: Deal Srl.; Daido Tosio; MES; IHI Infrastructures; Samsung E&C; Hyundai E&C
- Export experience: Japan; Mexico; Argentina; USA; UAE

Vietnam Industrial Group Joint Stock Company (CNV Group) was established and officially went into operation in July 2005. Through a long way of building and developing, the brand CNV Group has affirmed its position in the market. Our products always show its outstanding quality. It not only suitable for many projects but also and is the optimal choice for customers.

- **Established year:** 2005
- **Number of permanent employees:** 510
- **Turnover:** 20 million USD
- **Standards:** ISO 9001:2015; 5S
- **Main products:** Automation systems; Mechanical spare parts; Pallet; Hydraulic and pneumatic lift; Conveyor; Chain; Dry oven machine; Electric-Mechanical systems (Air ventilation, Chiller, smell removal, smoke collector, dust collector system, transfomer)
- **Main technology and equipments:**
  - CNC Milling machine (6 units); Milling machine (3 units); Grinding machine (2 units); Stamping machine (4 units); Plasma cutting machine (2 units); CNC Lathe machine (3 units); Welding machine (35 units); Mig welding machine (20 units)
- **Main customers:** Honda Vietnam; Asahi Denso Vietnam; ABB Ha Noi; Goshi Thang Long auto parts; Yamaha Moto Vietnam, Denso Vietnam

Vit Viet Industry Production & Trading Jsc. was founded in 2010 and produce the first product in 2013. We have ISO 9001:2015 quality management system certified in 2014. Vit Viet specializes in manufacturing accessories of Wood Processing Industry, Automobile & Motorcycle Assembling Industry and M&E – pipe hangers, U bolts and threaded rods, ... used on fire protection system; water supply and drainage system; and plasterboard ceiling installation; ... With the motto “Prestige, quality is the first”, Vit Viet provides customers products of high quality at reasonable price.

- **Established year:** 2010
- **Number of permanent employees:** 48
- **Turnover:** 2 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Bolts, nuts, screws; Threaded rods; Special Bolts
- **Main technology and equipments:**
  - Screw pressing machine (6 units); Screw thread rolling machine (6 units); Pressing machine (8 units); Lathe machine (2 units); Bulldozer; Shaped machine; etc.
- **Main customers:** Ree; Hoang Anh Gia Lai Corp.; Le Lumber; Le Tran; Tan Thanh; Searefico
Vietnam - Hungary Electrical Machinery Manufacturing Jsc (Vihem)
is specializes in manufacturing electric motors, industrial fans, such as:
- Electric motor 1 phase AC voltage 220V capacity from 2 to 3kW;
- AC electric motor 3Pha levels of speed, capacity from 125 to 2500 kW (with the power supply voltage: 110V, 220V, 380V, 660V, 3300V, 6000V, 10000V);
- Types of special electric motors: engine mounted from brake, engine and intelligent engine coupling from (VS);
- Industrial fans of all kinds;
- Balast fluorescent lamps (neon light tubes) 40W, 20W
The company’s products are manufactured according to IEC 60034 diagnostic targets, TCVN 1987-1994

Established year: 1978
Number of permanent employees: 300
Turnover: 9 million USD
Standards: ISO 9001:2015; 5S
Main products: Electric motors; Industrial fans; Electrical equipments and spare parts
Main technology and equipments:
Main customers: Hai Duong Pump; Viglacera; Huong Duong Cement
Export experience: Australia

Vietnam Mechanical Casting Jsc.
produces casting products. We have good capacity and can meet customer's high requirements for any types, any shapes, any weights and any alloy materials. We apply many new technology to provoke:
- Furan Technology
- Lost foam (expandable-pattern) casting
- Die casting
- Glass sand casting
Field of Application:
Valves, Pumps, Gas Burners, Mining Equipment, Automotive, Industrial Machinery, Pharmaceutical Machinery, Agricultural equipments, Cement equipments, Textile & Sewing Machines Instrumentation & control, Defence Equipments, , Aircraft Components & Railway Parts,

Established year: 2009
Number of permanent employees: 65
Turnover: 4 million USD
Standards: ISO 9001:2015
Main products: Casting parts; Casting products
Main technology and equipments:
medium-frequency furnace (3 units); CNC Milling machine (1 unit); Turning machine (1 unit); Optical sound spectral analyser (1 unit)
Export experience: Japan; Germany; Italia

Vina Japan Engineering Ltd (VJE) is a joint-venture among Vietnamese and Japanese companies. In over 10 years since our establishment in 1996, VJE has built up trade mark of a leading foundry in Vietnam, who applying advanced technology together with modern and synchronous equipment system from Japan. Our quality is control by Quality Management System ISO 9001:2015 In technical side, our products are made following JIS by Furan sand molding or green sand molding process by skill full technicians and workers.
Our target is to meet all diversiform requirements on products, continuous improvement of quality to get better satisfaction of domestic and oversea customers on quality, delivery and price

• Established year: 1996
• Number of permanent employees: 226
• Turnover: 11.2 million USD
• Standards: ISO 9001:2015
• Main products: Casting parts; Casting products
• Main technology and equipments: Furan Sand Mounding Line; Induction Melting Furnaces; Shot Blast Machine; Continues Mixer; Geared Transfer Ladle
• Main customers: Kyoei Industrial; Toshiba Industrial Products Asia; Yamazaki Mazak Singapore; Toyota; Sumitomo
• Export experience: Japan; Germany; Italia

VMIC is located in Cam Pha - Quang Ninh, it had been designed, built and equiped a close assembly line by Russia. And now it has been investing deeply, changed and innovated, supplemented many new equipments with advance technology coming from the countries of Germany, Italy, Japan, England, Belgium, Finland, Korea, Taiwan,... in order to overhaul all kinds of mining transporting trucks from 20-91 tons; assembly, manufacture of trucks and popular vehicles; fabricate steel structure, standard mechanical products for local vehicle and national economic sections.
VMIC'creative leadearship, professional engineers and experienced workers commit to satisfy the endusers with high quality products and good services.

• Established year: 1960
• Number of permanent employees: 530
• Turnover: 14 million USD
• Standards: ISO 9001:2015
• Main products: Automobike; Automobile spare parts; Steel structure and mine equipments
• Main technology and equipments: Group of drillers, boring machines (21 units); Group of welding machines (37 units); Turning lathes (38 units); Bridge cranes (33 units)
• Main customers: Member companies of Vietnam Minerals and Coal Industry group
From small factory founded in 08/1998 with some lathes, milling and plastic injection machines. In 12/12/2012 We decided to use Vinamold as the name of the company. We expect Vinamold to be one of the highest precision mold making company in Vietnam producing for both the local and international market. At the present, we are making molds for the following industries:

- Plastic mold for PET, HDPE and especially PET mold upto 32 cav with Horunner.
- Closure molds for water, edible oil, medial cap...upto 32 cav with Hotrunner.
- And we are working with many Japanese customers to make Die-Casting mold.

Vinashin Precision Engineering Jsc. was established in We have model machines with EU technology and specialise in mechanical products, metal parts, steel structure...

VINAVIT FASTENER CO., LTD

VINAVIT CORP founded in 1999 specialized in manufacturing and distributing fastener products: standard, tightly-tolerance, specialized parts for steel & stainless steel bolts and nuts to everything in between. We support customers to find fastener solutions by providing technical consultancy and products. Besides producing diversified product lines that meet general market’s need, we also serve customers who have customized requirements in criteria of product index and quality. Our customers come from diversified fields such as machine assembly, furniture, electric, etc., stretching from developing countries in Southeast Asia like Indonesia, Malaysia to developed countries that demand high requirements such as Japan, Italy, Germany, UK.

- Established year: 1999
- Number of permanent employees: 200
- Turnover: 6.5 million USD
- Main products: Fastener; Bolt; Nut; Screw
- Main technology and equipments: Part/bolt/nut forming machines (60 units); Threading & Tapping machines (60 units)
- Main customers: Schneider electric; Sam Sung; Toshiba; Scancom; Ikidea; Ejot; Friulsider; Hilti

Vnsteel Thang Long Coated Sheets Joint Stock Company is member of Vietnam Steel Corporation (VNSTEEL)- the top Steel Manufacturing and Trading Enterprise in Viet Nam. The main products of the Company are galvanized sheets and pre-painted galvanized sheets carry label “Ton Thang Long- Ton Viet -Y”. They are produced by the German and Italian most modern technology line with the capacity of 000MT galvanized products and 000 MT pre-pained galvanized products per year.

- Established year: 2010
- Number of permanent employees: 176
- Turnover: 62 million USD
- Main products: Galvanized sheets; Prepainted sheets
- Main technology and equipments: Continuous Hot-dip Galvanizing Line (1 unit); Cotinuous Color Coating Line (1 unit)
- Export experience: Laos

Vietnam precision mechanical service and trading co.,ltd (VPMS) was established in 2006 which initially specialized in producing and manufacturing the assembled jigs and the welded ones in the fields of automobile, motorbike and electronic industries. 2017 VPMS started to design the aluminum casting mold, plastic compression molds and die molds. VPMS associated with a number of Japanese companies in technology transfer to established a new factory specialized in producing completed products which are exported to international markets such as Japan and Korea then...

In addition, VPMS has also been invested more modern machines and created precision processing department which specializes in processing product with hight precision requirement.

- Established year: 2006
- Number of permanent employees: 134
- Turnover: 4,3 million USD
- Standards: ISO 9001:2015
- Main products: Aluminum casting molds; Plastic compression molds; Die molds; Jigs and milling jigs; aluminium products.
- Main technology and equipments: Design measurement machine, Milling machine (6 units); Lathe machine (1 unit); Grinding machine (2 units); CNC machine; Electric discharge machine (EDM) (5 units); Processing center (10 units); Line cutter machine, honing machine.
- Main customers: Nissin; Honda; Yamaha; Tenma; Daiwa; Chiyoda; Roki; ABB

YAMAGUCHI VIETNAM JSC.

Yamaguchi Vietnam JSC was founded in 2011 and specialized in precision metal processing and manufacturing. Our vision is to become a leading manufacturer of supporting the industry in Vietnam.

About 95% of our customers are from Japan/Japanese Corporation and 15% of our productivity is exported directly to the Japanese market. Therefore, we developed the ability to communicate well in Japanese and read Japanese Technical Drawings. Adapt to both single and mass production. We plan to achieve a Certificate of quality assessment as ISO9001-2015 and ISO 2019 in 2019.

Our experience and customers’ satisfaction have enabled our company to grow fast and soon gain a high position in Vietnam market.

• Established year: 2011
• Number of permanent employees: 170
• Turnover: 6 million USD

Cuong Vinh produces many kinds of Electric motors (Electric Fan Motor; Exhaust Fan Motor; Industrial Fan Motor)

- **Established year:** 1995
- **Number of permanent employees:** 950
- **Turnover:** 30 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Electric motor;
- **Main technology and equipments:**
  - Torque meter machine (1 unit);
  - Lifecycle products testing machine (1 unit);
  - Aluminum die-casting machine (250 T) (8 units);
  - Grinding machine (18 units);
  - Winder machine (60 units);
  - Coil Wedge Inserting Machine (18 units);
  - Belt straps machine (35 units)
- **Main customers:** Senko; Lifan; Bifan; Midea; Sensho
- **Export experience:** Southeast Asia, Asia, Africa, America & Middle East

Hanel Production and Import Export Joint Stock Company (hereinafter referred to as “HanelPT”) established on 2000, Hanel PT has marked its present to partners by its name and prestige!

Type of production: Processing, assembling and exporting electric - electronic components.

All activities of Hanel PT are aimed at achieving the final goal of providing the ultimate benefit for its client. Over nineteen (19) years of working with international partners has given us the precious experience in terms of prestige and high precision from the smallest thing. We always aim to be the leading Vietnamese enterprise in processing and providing electric – electronic components.

- **Established year:** 2000
- **Number of permanent employees:** 280
- **Turnover:** 8.9 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2015
- **Main products:** Piezoelectric element: Sounder, buzzer, sensor, transformar, actuator...; Printed Circuit Board
- **Main technology and equipments:**
  - Rap machine (6 units); CNC cutting machine (5 units);
  - Burn and Dry machine (6 units); Surface Printing Machine (8 units);
  - UV Bond Dry Machine (4 units); DIP line (2 units);
  - SMT line (1 unit); Solder Automatic machine (8 units)
- **Main customers:** Japanese electronics companies
- **Export experience:** Hongkong; Japan

AVIATION HIGH - GRADE PLASTIC JSC.

Being established in 1989, Aviation High Grade Plastic JSC. (Aplaco) previous was a state-owned enterprise under the Management of Vietnam Airlines Corporation. Aplaco has become Joint Stock Company from June With many years doing business in plastic industry, Aplaco has expanded its business to become one of the leading companies in Vietnamese plastic industry. We have owned high advanced technologies from Europe, USA, Japan... producing high quality products plastic industry.

Major products of Aplaco:
- High quality plastic products for domestic and oversea Airlines
- Plastic disposable items for export
- Plastic items for packaging
- Plastic items for industrial purpose
- Plastic items for family’s use

Beside domestic market, Aplaco exported to more 20 nation in the world, such as America, France, Germany, Sweden, Australia, Japan...

- Established year: 1989
- Number of permanent employees: 300
- Turnover: 22 million USD
- Standards: ISO 9001:2015; ISO 14001:2004; SA 8000; HACCP, Kaizen; 5S
- Main products: Plastic products; plastic components
- Main technology and equipments: Hydraulic Punching; 2-Colour Jet Presses; Film Blowing Machine; Vacuum Machine; Printer on a Circular Plastic Products
- Main customers: Ford Vietnam, Takanichi, Toyota, Honda, Yamaha, Nestle, Canon, Fujikin...
- Export experience: EU; USA; Japan; Korea

BAC VIET TECHNOLOGY JSC.

Bac Viet provides its valued customers with a comprehensive solution for the production of precision injection molds and precision plastic parts used in the electric-electronics industry. With modern and synchronous machinery system, highly qualified human resources and successful application of quality management system ISO 9001:2015 and ISO 14001:2015, Bac Viet has met the demands of Japanese and Korean customer such as Canon Vietnam, Samsung Vietnam, Kyocera Vietnam, Seowon Intech and other large corporations.

- Established year: 2008
- Number of permanent employees: 240
- Turnover: 6.5 million USD
- Main products: Injection plastic parts
- Main technology and equipments: Injection Molding Machine 60-360T (35 units); Zoller Presetter (1 unit); Vision Measuring Machine (1 unit); Coordinate measuring machine (1 unit)
- Main customers: Canon Vietnam; Muto Vietnam; Kyocera; Brother; Korg Vietnam; Panasonic; Hanoi Seowon Intech; Estec Phu Tho Co.ltd

- **Main customers:** About 100 distributors and dealers in Vietnam
- **Export experience:** Europe; Australia; Cambodia
Do Thanh Technology Corp. has more than 20 years experience in manufacturing plastic products and molds. With modern machines and tools, professional engineers and staffs, serious apply management standard ISO 9001:2015, we control well the process and ensure customers' satisfaction.

• Established year: 1994
• Number of permanent employees: 200
• Turnover: 7 million USD
• Standards: ISO 9001:2015
• Main products: Plastic products; Plastic bottle; Precision plastic parts; Plastic moulds
• Main technology and equipments: Injection molding machine (25 units); PET bottle stretch-blow molding machine (19 units); CNC machining center (5 units)
• Main customers:
• Export experience: USA; Canada; Thailand; Cambodia

Dong Tam Tech Vietnam JSC is a leading Vietnamese Manufacturer of Rubber & Silicone Molded Parts for Industrial and Customised Parts such as Automobile, Motor bike, Home Appliances, Food Contact..in Domestic and Export market (USA, EU, Japan, Korea...). We drive excellence in molding solutions focused on performance, cost controls, services, delivery safety, quality and environment friendly.

• Established year: 2016
• Number of permanent employees: 28
• Turnover: 210 000 USD
• Standards: ISO 9001:2015
• Main products: Rubber parts; Silicon Part& Product;
• Main technology and equipments: Vacuum Rubber Molding machine (200-250 T) (8 units); Rubber & Silicone Injection Molding machine 300 tons (1 unit)
• Export experience: Europe; Korea; USA
Duy Tan Plastic Corp. early founded as a small group of manufacturing plastic products named DUYTAN, was established in October, 1987. Being one of the leading plastic companies in Vietnam and in a few of among the companies, we can provide our customers perfect solution through closed processes from the mold design, making mold, testing samples, manufacturing plastic products with injection and blowing processes, printing, labeling and delivery. With those advantages, we assure the perfect quality and delivery on time.

- **Established year:** 1987
- **Number of permanent employees:** 2600
- **Turnover:** 127 million USD
- **Standards:** ISO 9001:2015; 5S; ISO 14000:2015; ISO 15378
- **Main products:** Plastic products; Plastic containers; Plastic parts for electronic products; Plastic mould
- **Main technology and equipments:** CLF; JSW; KM; SMC; Kami
- **Main customers:** Ajinomoto; Unilever; Nestle
- **Export experience:** USA; Japan; EU, ASEAN

Phong Nam - Sinhirose Company specializes in the design, processing, molding and production of industrial plastic products.

- **Established year:** 1995
- **Number of permanent employees:** 220
- **Turnover:** 5.5 million USD
- **Standards:** ISO 9001:2015
- **Main products:** Paint Pails; Industrial Containers; OEM Plastic Products; Plastic mould
- **Main technology and equipments:** Plastic Injection Machine (20-850T) (47 units); Milling, cutting, pulsing and grinding machines (28 units);
- **Main customers:** Dong A Viglacera; TS Interseat; Sin Hirose Shoji; Nagara
- **Export experience:** Japan

HANPO VINA is major in manufacturing about injection of plastic products and includes other stages of processing (include assembling); we serve range from industrial electronics, telecommunications, motorcycle, home appliance...

- **Established year:** 2017
- **Number of permanent employees:** 100
- **Turnover:** 2 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2015; 5S
- **Main products:** Plastic products: Telephone part; Computer Part; Motorcycle part; Vacuum part
- **Main technology and equipments:** Injection machine (20 units); Robot for injection mold machine line (20 units); Laser Graving (1 unit); Hot melt (1 unit); Ultra welding machine (1 unit);
- **Main customers:** Samsung Vietnam; LG Vietnam; ASUS; Sony; HJC; Jtech; P&H
- **Export experience:** Japan; USA
Giai Phong Rubber is the leading manufacturer of supporting industry in Viet Nam. We are a specialist in manufacturing rubber parts. Owning synchronous quality management system and modern manufacturing engineering with advanced machineries, we constantly improve and develop our operation in order to provide products to our customers with requirement’s quality, competitive price and professional services.

- **Established year:** 2004
- **Number of permanent employees:** 150
- **Turnover:** 4.6 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2015; OHSAS 18001:2007; CE; UL
- **Main technology and equipments:** Rubber Compression machine (32 units), Rubber injection machines (2 units), Plastic Injection machines (7 units); CNC machines (3 unit)
- **Main products:** Rubber and soft PVC parts for motorcycle, automobile and home appliance..
- **Main customers:** ASTI Electronic Ha Noi; Nissin Brake Vietnam
- **Export experience:** Japan, Thailand

Vietnam HTMP Company, with 10 years of presence in the market, has contributed to promoting Vietnamese mold and plastic products to international customers. HTMP Vietnam have 3 factory specializing in manufacture for injection mold and part. With its machinery and equipment systems and professional operating workers, HTMP Vietnam has become a trusted partner of the world’s leading corporations such as Honda, Canon, Panasonic, Yamaha, Nissin, Anam, Tsukuba ...

With the motto “Quality - Delivery - Cost”, HTMP Vietnam has constantly made efforts to mark on the world map of mold and plastic products by its own name and reputation!

- **Established year:** 2009
- **Number of permanent employees:** 424
- **Turnover:** 19 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2015; 5S
- **Main products:** Plastic products: Printer Part; Motorbike and Automobile part; Amplifier & Sound bar part; Telephone part
- **Main technology and equipments:** Injection machine (50-1050T) (63 units)
- **Main customers:** Canon Vietnam; Honda Vietnam; Nissin Brake Vietnam; Panasonic System Networks Vietnam; Stanley Electric Vietnam; Samsung Electronics Vietnam; Tsukuba Die Casting Vietnam
- **Export experience:** Japan; USA
Hanoi Plastic Joint Stock Company (HPC) was established in 1972. HPC is equipped with modern production plant and production lines, modern equipment systems imported from the USA, Western European countries, Japan and some new industrial countries (NICs) with mechanized qualifications and relatively high automation. HPC is considered as the leading modern and advanced plastic manufacturing company in Vietnam, being the leader of North Vietnam in the technology of producing high quality industrial engineering plastic products according to international standards.

- **Established year:** 1972
- **Number of permanent employees:** 1200
- **Turnover:** 46 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2015
- **Main products:** Plastic moulds; Plastic parts for motobike & car, electronics; Plastic boxes, Pallets
- **Main technology and equipments:** Plastic Injection Machine (50-2500 tons) (120 units); Metallic mould manufacturing machines (CNC) (17 units); Inspection & Measuring Equipment (Scan 3D, CMM, ...)( 10 units)
- **Main customers:** Honda Vietnam; Toyota Vietnam; Ford Vietnam; Vinfast, Piaggio, Panasonic Appliances, Panasonic System Network, Toto Vietnam
- **Export experience:** Japan

Passing through development progress, Hanel Plastics, by now, has three modern production units valued at approximately 18 million USD, including a styrofoam production workshop, a high-grade plastics production workshop and an affiliated company. By building and applying the Quality Management System ISO 9001:2015 and the Environment Management System 14001:2004, Hanel Plastics JSC at any time clearly defined its objective as directing toward the customers on the basis of “Thoroughly understanding the customers’ demand in order to supply them the suitable products and service”.

- **Established year:** 1994
- **Number of permanent employees:** 350
- **Turnover:** 18 million USD
- **Standards:** ISO 9001:2015; ISO 14001:2000; HACCP
- **Main products:** EPS packing for printer; EPS packing for washing machine; Plastics for printer; Plastics for vacuum cleaner; Plastics for washing machine
- **Main technology and equipments:** Shape moulding machine (18 units); Injection (42 units)
- **Main customers:** Canon Vietnam; Panasonic; LG; Samsung

**TAN Y PLASTIC & MOULD CO., LTD.**

Established year: 1998  
Number of permanent employees: 30  
Turnover: 3 million USD  
Standards: 5S  
Main products: Plastic moulds, Molds; Plastic product; Precisive parts; machining design and making  
Main technology and equipments: CNC machines (5 units); EDM (3 units); Milling, lather, Planar (6 units); Injection machine (120-600 tons) (8 units)  
Main customers: From USA, Japan, Korea, Europe  
Export experience: USA; Japan, Europe

Established in 1998, Tan Y specialises in Plastic moulds and precise parts, plastic products, 3-D design, EDM spark, CNC metal works. As the perfect combination between skill, human resource and the newest technology, we can meet the rising request for high quality molds, to the domestic and overseas market. The rapid delivery system, on time service and the quality of products are very important for us. We are ready to serve you the best products and services.
THIEN MY INDUSTRIES CO., LTD

Thien My is a Plating professional company, current we supplying for big companies as: HONDA, YAMAHA, PIAGGIO (motor cycle) LG, PANASONIC (Washing machine) with Plating line- plating on plastic, plating on metal. Our slogan “REACHING TO PERFECTION” we always improvement to service customer is better and get more new customer.

★ Established year: 1999
★ Number of permanent employees: 300
★ Turnover: 8,9 million USD
★ Main products: Plating services; Chrome plating on ABS plastic/Brass/Steel; Zinc Plating: Alkaline/Acid/ Zinc-Nickel Alloy/Zinc-Iron Alloy
★ Main technology and equipments: Chrome Plating on ABS Plastic (4 units); Chrome Plating on Brass/Steel (1 unit); Zinc Plating (Rack system) (3 units); Zinc Plating (Barrel system) (2 units)
★ Main customers: Honda; Yamaha; Piaggio; LG; Panasonic
★ Export experience: Indirect by customers
